

# MAXIMIZE MANUFACTURING TOGETHER >>

## Empowering your Enterprise to Adapt, Innovate and Succeed

The Manufacturing industry today is facing ever-growing challenges. Enterprises are under constant pressure to deliver innovative products, respond to customer demands more quickly and create greater efficiencies. But relief is on the way through the Maximize Manufacturing Together (MMT) approach from Atos Origin. Developed based on SAPERP and Business Suite 7, it enables enterprises to innovate, adapt and succeed in the market of today.

Our extensive experience covers more than 1,500 SAP implementations across all areas of Manufacturing and other industries. We already do it for leading enterprises such as Akzo Nobel, Eneco, Enel, Ferrero, Huntsman, L'Oréal, Philips, Sabic, Saudi Aramco, Shell, Total and Unilever, and here's how we can do it for you!

# FAST AND EFFECTIVE RELIEF FOR BUSINESSES

MMT provides a suite of world class business solutions that increase a manufacturing company's flexibility while delivering cost reductions and operational excellence. It helps enterprises to optimally plan, schedule, sequence, execute and monitor all their manufacturing processes leading to higher profits and more marketplace wins.

The MMT approach leverages and improves operational application landscape infrastructures. It provides recognized thought leadership around a number of key areas that support the following strategic priorities:

- » Maximizing the business value of innovation and new solutions
- » Introducing best practice business processes
- » Maximize operational cost effectiveness
- » Achieving operation efficiencies by reducing TCO

## PROVEN APPROACH AND VISION

MMT connects with your entire enterprise, including your current manufacturing infrastructure and across the wider scope of an entire SAP application landscape. And by accelerating time-to-value and delivering greater operational excellence through a more reliable, efficient and flexible landscape, it increases the business value of IT.

It combines:

- » SAP-centric innovative solutions
- » Vertical industry expertise in discrete and process industries such as: Automotive, Chemicals, CPG, High Tech and Oil & Gas
- » Assessment methodology (featuring benchmarking with industrial knowledge base)
- » Fast and flexible implementation methodology (featuring Fit/Gap analysis and Process Match)
- » End-to-end and worldwide execution capabilities

Our approach means that we are able to offer a fast implementation methodology and execution capability which reduces risk significantly and has proved highly successful on many global projects, leading to significant reductions in TCO and process costs.

We are a one-stop shop for SAP services, delivering an adaptive infrastructure and providing full visibility on the TCO thanks to our unique combination of technical expertise and deep industry knowledge. Maximize Manufacturing Together helps enterprises focus on business performance effectiveness.

## ANSWERING KEY BUSINESS ISSUES

MMT focuses on Initiatives that directly affect the Manufacturing Industry:

- » Industry Best Practice
- » Enterprise Management & Support
- » Supply Chain Planning & Execution
- » Quality Management
